

## New Melbourne Co-working Space Dimension<sup>5</sup> Launches Amid ‘Ideas Boom’

***Creative Universe welcomes Federal Government \$1 billion Innovation Statement, announces launch of new co-working collaboration with Dimension Data Australia.***

Melbourne, Australia – Monday 15 February, 2016

Creative Universe welcomed the Federal Government’s vision for a more innovative economy, particularly its support for incubators and increased collaboration between businesses, universities and the research sector.

As part of its [National Innovation and Science Agenda](#) the Government is setting aside \$8 million for an Entrepreneurs’ Programme, aimed at helping more start-ups realise their economic potential.

Creative Universe and Creative Innovation Global Founder, leading soprano and serial entrepreneur Tania de Jong AM said the collaboration fostered at high performing incubators and co-working spaces was a crucial ingredient to innovation.

“The elements of mentoring, shared resources and networking that exist in co-working spaces rapidly accelerate the opportunities available to early stage entrepreneurs,” she said.

The launch of the Federal Government’s Innovation Statement comes as Creative Universe announces a partnership with Dimension Data, the global ICT solutions and services provider, which will see the launch of a new Melbourne co-working space in early 2016.

Dimension<sup>5</sup> aims to promote ‘positive human collisions’, sparks innovation and entrepreneurship across technology, start-ups, business and social enterprises.

Five-dimensional space refers to a hypothetical extra dimension beyond the usual three spatial dimensions and the fourth dimension of time in relativity physics.

The South Melbourne hub will be open to entrepreneurs, innovators, creatives, social enterprises; small businesses, not-for-profits; disruptive teams from large organisations and others who want to connect with a passionate community of game-changers.

Memberships at Dimension<sup>5</sup> will be available from \$425 per month and include invitation to regular community events, such as brainstorm breakfasts, pitch nights, guest speakers and yoga/meditation classes. Additional membership options also include mentoring opportunities with corporate partners.
